

***Wellingtone Omondi Otieno,***  
***Special Needs Educator,***  
***Software Developer.***

I am a dedicated student and aspiring professional in the fields of Special Needs Education and technology-driven solutions. My academic pursuit at Kisii University, combined with my technical expertise in web development and cybersecurity, positions me uniquely to contribute to innovative and socially impactful projects.

Through my work with Neton Consortium and Neton Prime Link, I have honed my skills in designing and managing web applications, coordinating technical projects, and developing user-focused payment platforms such as *Neton Pay*. Additionally, my freelancing role at Skylink has allowed me to create compelling content that connects audiences with technology in meaningful ways.

I am passionate about using technology to break barriers in education, create inclusive solutions, and address societal challenges. My interests span from developing e-learning platforms to building systems that enhance connectivity and security. I thrive in collaborative environments where creativity and innovation drive impactful outcomes.

Thank you for exploring my portfolio and CV. I look forward to connecting with like-minded individuals and organizations to make a difference through technology and education.
